EDUCATION

B.Tech (CSE)

Nov 2022-Jul 2026

HMRITM, GGSIPU, Delhi

CGPA - 8.9/10

INTERNSHIP & TRAINING EXPERIENCE

Smart India Hackathon – Grand Finalist 2x (2024,25)

Dec 2024 & Dec 2025

India (National Level)

- Front End Development

- **SIH 2024:** Worked in a team of 6 to develop a real time Geolocation based Attendance System, reducing proxy attendance by **70%** and ensuring secure location-based user validation.
- Performed authentication workflows and an admin dashboard, improving attendance tracking efficiency by **40%**.
- **SIH 2025:** Contributed to the development of a Mental Wellness Platform for **10,000+** higher education students across India.
- Built a responsive Android frontend using Kotlin and Jetpack Compose, improving accessibility and supporting nationwide adoption.

EMV Softwares Pvt. Ltd.

Aug 2025 – Nov 2025

Rohini, Delhi

- Software Programming + Business Development Intern

- **Handled** business development responsibilities including client outreach, requirement understanding, and solution pitching, contributing to improved client engagement and conversion.
- **Contributed** to digital marketing initiatives by creating visual content, System flowcharts, and promotional designs using Canva, while strengthening core coding fundamentals.

Delhi Metro Rail Corporation (DMRC) | SDE

Jun 2025 - Jul 2025

Mayur Vihar, Delhi

- Software Development Intern

- Collaborated with a team to build a Vendor Empanelment Portal using React.js and Node.js for real-time vendor application submission and tracking, with 2-factor authentication reducing manual onboarding effort by **1/3**.
- Designed a structured MySQL database schema and created multi-level DFDs (Level 0, 1, 2) for system workflow visualization, improving data organization that was inculcated in the project backend.
- Learned from senior experts about the metro operations, signaling, and safety workflows, aligning technical implementation with real-world system requirements.

Bharti Airtel Ltd

Apr 2025 - May 2025

Gurugram, Haryana

- Android Development Intern

- Learned to enhance Android application features using Kotlin, Jetpack Compose, and MVVM architecture, improving UI responsiveness and maintainability while ensuring scalable code structure.
- Optimized application performance using Jetpack libraries and lifecycle components, reducing screen load time by **25%** and improving overall app stability and efficiency.

PROJECTS

Geolocation-Based Attendance System | [GitHub](#)

- Built the front end for a mobile application using Java that enabled real-time attendance tracking leveraging geolocation. The app ensured accurate verification of user presence within predefined locations.
- Designed an intuitive, user-friendly interface, enhancing user engagement.

Aqua Sentials App for Villagers | [App](#)

- Built the front end for a Jetpack Compose based Android application using Kotlin to connect rural communities for self-reporting waterborne diseases.
- Focused on intuitive **UI architecture** and scalable design for community-level adoption.

MindEase App for Students | [App](#)

- Developed an Android App for Mental Health tracking enabling students to access self-assessment and well-being support features.
- Built a user-friendly UI using Kotlin & Jetpack Compose.

TECHNICAL & SOFT SKILLS

Tech Stack: HTML, CSS, Tailwind, JavaScript, React.js, MongoDB, Git/GitHub, Kotlin (Jetpack Compose), Java

Core Concepts: Web Development & Front-End Mobile App Development, Operating Systems, Computer Networks, DSA, OOPS, DBMS

Tools: Visual Studio Code, Google Antigravity, Android Studio, Bootstrap, Canva, Figma

Career Focus: Currently focusing on strengthening skills towards Full Stack Software Development

Soft Skills: Leadership, Communication, Teamwork, Sportsmanship, Quick Learning

ACADEMIC & EXTRA-CURRICULAR ACHIEVEMENTS / CERTIFICATES

- **SIH ('24,'25):** 2x Smart India Hackathon Grand Finalist consecutively. | [Certificates](#)
- **Sports:** National-level Bronze Medalist (Netball); College Gold Medalist in Chess, Tug of War, and Javelin Throw; Bronze (Shot Put)
- **Proximus + E-Cell HMRITM:** Organized hackathons, workshops, and innovation challenges as a Core PR. | [Certificate](#)
- **Languages:** Java, Python, C++, IoT | [Certificates](#)
- **Tech Communities:** Actively participate in Google Developer Groups (GDG) & Microsoft Azure Community events.
